11 October, 1966.

Miss J. Robarts, Reg. N., B.Sc. N.,  
Principal,  
Osler School of Nursing,  
206 Church Street,  
Weston, Ontario.

Dear Miss Robarts:

At a recent meeting of the Board of Governors of Humber Memorial Hospital, the Governors received a rather full report of the progress of the Osler School, from its Chairman, Mr. C. E. Conroy.

The Governors of Humber Memorial Hospital have been impressed with the remarkable progress made in the inception of the School, especially in appreciation of the many obstacles that have been encountered by you, as the Principal and Director of the School, in both a physical sense and an administrative and academic sense.

The Board was most appreciative, as directors of the sponsoring hospital, at the accomplishments realized in so short a time under your leadership.

At its first meeting after the summer months, a resolution was passed requesting me to express the appreciation and congratulations of the Board of Governors of Humber Memorial Hospital to you, in respect to your outstanding leadership of this vitally important project.

Our full Board is kept fully informed as to the problems and progress of the Osler School, and we assure you of our continued great interest and support.

Very sincerely yours,

E. D. Rushbrook, C.A.,  
CHAIRMAN,  
BOARD OF GOVERNORS,  
HUMBER MEMORIAL HOSPITAL.
