LIBRARY BOOK DROPS

The Library and Learning Resource Centre Book-Drops are provided as a convenient way for faculty, staff and students to return their books.

Library staff report that many books deposited in the Book-Drops are collections from various public libraries in Toronto, Mississauga and Streetsville.

What results is a tremendous amount of unnecessary work. The Humber College Library says that a borrower is responsible for a book until it is returned to its proper library. Avoid the hassle and additional charges by returning books to their proper locations.

FLORICULTURE WEEK

The Retail Floriculture and Landscape Technology Programs in the Applied Arts Division recently got together to honor Humber's Tenth Anniversary with a Floriculture Week.

Called "A Salute to Humber's Tenth", the week began with corsages being handed out to the first 2,500 people entering Humber on Valentine's Day.

A series of exhibits and displays were located in the North Campus Concourse while students and staff presented daily demonstrations with gladiolus, tulips, carnations and chrysanthemums.

The two Humber Greenhouses, Laboratory and classrooms were open for tours and a number of draws took place for free indoor plants.

The special week coincided with the annual meeting at Humber of the Ontario Parks Association. More than 100 participants from across the Province also had a chance to view two beautiful displays prepared by students in the Landscape Technology Program.

Gunter Turowski (left) and George Dickson (second from left) of GSW discuss metric program with Humber's John Hart and Paul Halliday.

HUMBER AND GSW DEVELOP METRIC TRAINING PROGRAM

Humber, in conjunction with GSW, has developed a comprehensive employee metric training program that is flexible to the needs of all GSW divisions and employee groups. GSW is a diversified Canadian company with manufacturing, warehousing, sales and service facilities located throughout Canada. GSW manufactures a wide variety of goods ranging from building products to housewares, water heaters to major kitchen appliances.

GSW requested program proposals from various community colleges in Ontario. Following review of the proposals received, Humber was selected for the final development of GSW's Employee Metric Training Program.

Gunter Turowski, Corporate Manager for the Metric Conversion Program at GSW, said the Humber program will provide GSW employees with the opportunity to acquire a practical knowledge of metric units and their application through activities that involve comparing, conversion, measuring and related problem-solving.

WINTARIO ASSISTS TOY CHEST

The Ontario Lottery Corporation's popular Wintario Fund has come through with a grant to Humber's Travelling Toy Chest project.

A grant of \$8,250 was awarded to Humber to help purchase a van and equipment for the mobile toy library.

The project is designed to bring educational toys to developmentally handicapped children.

The van will make its first visits to the regions of York and Peel beginning in March.

YE3HUM - OVER AND OUT

CHBR and CHCR aren't the only radio stations at Humber College.

There is another one called YE3HUM and it has figured prominently in competitions with other stations.

YE3HUM is a ham radio located in Humber's Technology Division at the North Campus. Dave Dudley, a graduate of the Electronics Technology Program at Humber last year, operated the station to achieve the highest Canadian score in a major overseas competition with 1,283 contacts.

The outstanding showing has prompted two Technology faculty members to obtain their operators licences.

Bob Day, now VE31KM, and Don Matthews, now VE31XJ, join two other station operators in the Technology Division at Humber, Bob Nash and Bert White.

BUSY DAYS FOR EQUINE STUDIES STUDENTS

Students and staff in the Equine Studies Program at Humber have been kept busy organizing a number of horse shows recently at the North Campus Equine Centre.

In January, the Ontario Colleges and Universities Riding Association held their competition at Humber. Alan Manning, Elaine Moorlag and Mary Odette teamed up to win the Group Dressage category for Humber.

More than 150 riders from Colleges and Universities in the United States competed against Humber in an invitational dressage and jumping event in the first part of a weekend horse show doubleheader early in February. The second show, organized by the Ontario Western Horse Association, featured riders from more than 20 cities in the province.

Preparations are now underway for a major Tenth Anniversary show in April involving participation by members of Canada's Equestrian Team.

Call 676-1257 for more information.

Staff speak out!

QUESTION: What is your opinion of education today?

"I think high school, college and university should prepare the student more for the outside world. Students are frustrated when they graduate because they don't know what they want to do and I think the educational system should be geared more towards helping students realize their goals in life and making them think about their future."

Carol Marchellak
Activity and Facilities Manager
North Campus

"Many children are receiving a far superior education to what they would have 20 years ago. This includes the exceptional child at both ends of the spectrum. Somewhere in the middle is a sometimes forgotten group of average students who are often programmed for mediocre performance and cumulative ignorance. Excellence in education varies from school to school, teacher to teacher, and lucky is the student who is exposed to a teacher who likes the profession and cares about what is learned."

Marg Guthrie
Senior Co-ordinator
Quo Vadis Campus

"Certain aspects of the educational system are subject to criticism and change regardless of which direction the system moves in. Fortunately, our society is beginning to accept the concept of lifelong learning; as a result any individual is able to complement his or her primary and secondary educational inadequacies by reaping the benefits of continuous learning facilities."

Mike Lancelotte
Acting Chairman - Academic
Lakeshore 1 Campus

"Today, we have more educational avenues open than ever before and it appears people are, in increasing numbers, taking advantage of this. Being involved in a small way, I can see that educators have taken up the challenge offered by quickly changing social and economic conditions, and are thus able to proudly say that today's graduates are probably better equipped to jump in and take part in the game than were their parents. The fact the current generation of young people are also questioning some of our heretofore sacred cow concepts, I believe, also augurs well for our hopes that these young people will make their mark, and to me indicates that our educational system is to some degree successful not only in getting across the textbook basics but also in encouraging the idea that learning really starts when we leave school and that 'hey man' - maybe their is a better way to build a mousetrap."

Don Chown
Accountant
Lakeshore 2 Campus

"The values of education in general are implicit and certainly need no elaboration.

I'm pleased that secondary level education is changing to accommodate mandatory core curriculum once again. We're now paying the price of permissive education at that level. However, I strongly feel that post-secondary education should incorporate more compulsory and diverse liberal studies areas. Far too often, post-secondary graduates have very narrow and structured outlooks. What better exposure to varied disciplines than through formal education."

Don Dean
Planning Assistant
Executive Vice-President's Office
North Campus

"For a long time getting an education meant spending a prescribed number of years in various types of established schools. Added, education seemed to be the exclusive right of people aged 5 to 25. Today, people are beginning to realize that not all learning takes place in the classroom - that becoming educated occurs in many different living situations. And they are realizing that formal education need not stop at 25. I think education is moving in the right direction."

Dennis Stapinski
Co-ordinator of Student Affairs
North Campus

Profile

JACQUES GRANVILLE

Room 60 at Humber's Lakeshore Two Campus doesn't look like the average College classroom but many a fine head walks out it's doors.

In fact, once you open the large windowless purple door to enter, you are confronted with such things as hairdryers, curlers, manequins and wigs.

What is this place you say? It's the laboratory and classroom of Humber's Hairdressing Apprenticeship Program which offers the student two eight-week periods of in-school training as part of his or her apprenticeship.

Jacques Granville is an instructor in the course and was one of the first to work at Humber in 1968.

Granville, born in London, England, went to school there and later worked in various salons for 20 years before opening his very own in 1954 in Essex, England.

Hairdressing has found its way through the Granville family. Why?

"You won't believe this," he said. "My father, brother, sister, uncle and cousin were all hairdressers and my son, who has his Phd, was a hairdresser." "

Hairdressing is not an easy career.

"Our aim is to educate the student and to make him think," said Granville. "That's our philosophy and it takes time, patience and hard work."

Granville's partner at Dumas, a hairdressing salon in London's Mayfair area from 1949 to 1954, was a fellow called Vidal Sassoon, now world renowned for his hairstyles.

Granville, who will be 59 in March, lives in Downsview. He has written a 30-page book on hairdressing called "The Touch of Genius" but hasn't had time to publish it. The book gives the benefit of his 43 years of experience.

Granville recently recalled some of his most interesting and humorous experiences.

"The most interesting had to be designing hairstyles to complement tiaras of customers invited to the Coronation of Queen Elizabeth," he said. "One of the most humorous had to be the setting of a customer's hair for five consecutive days prior to her attending a Royal garden party. Satisfied with her hair and just prior to the party, the woman put on a wide-brimmed hat that covered the entire hairstyle."

Granville has won numerous awards. He holds diplomas for officiating in world hairdressing competitions in London in 1958 and 1959. Granville was a member of the elite Fellowship of Hair Artists in Great Britain in 1952 and was also President of the National Hairdressers Federation in England in 1958.

Granville's hobbies are golfing, playing bridge, photography and people watching?

"I like putting together an assessment of a person's personality, shape of face and hairstyle and fantasizing what should be the correct hairstyle for the person," he said.

Want to get your hair styled?

"Come visit us on Thursday and Friday mornings before noon", he said. "We don't allow students in the course to carry out services to clients until the student, the client and an instructor have an opportunity to thoroughly discuss the hairstyle," said Granville.

Hairdressers today have an opportunity to be the most knowledgeable of any previous generation according to Granville.

"The one drawback", he said, "is their tendency to 'specialize' before they have studied and understood the many other areas that are part of professional hairdressing. There are 19 different shampoos and lotions in our classroom and parlour and each one is suitable for a different person."

10TH ANNIVERSARY CONVOCATION BALL

Here's an event you will not want to miss.

It is Convocation Ball honoring Humber's Tenth Anniversary and the big extravaganza will take place on the evening of Friday, June 17, 1977 at the Royal York Hotel.

The number of tickets is limited to 1,500 and the cost for the evening which includes dinner and dancing to three bands, including Humber's Canadian Championship Stage Band prior to its trip to the International Jazz Festival in Montreaux, Switzerland, is only \$7.50 a person or \$15.00 a couple.

It is expected that a large number of Humber students graduating a few days prior to the Ball will be attending with friends and relatives making the availability of tickets limited.

Advance tickets go on sale March 1, 1977 until March 31, 1977 for all Divisions and Departments at Humber.

Beginning April 1, 1977, tickets will go on sale to the Humber alumni and the general College community on a first come basis.

All ticket requests in March should be directed to John Cameron in the Purchasing Department at the North Campus or call 676-1200, ext. 205.

Tickets will only be issued upon receipt of funds.

The general sale of tickets in April will be at all Bookstore locations and the Student Union.

Plan ahead and don't risk disappointment.

BOARD MEETINGS OPEN

All meetings of Humber's Board of Governors will be open to those interested in attending starting in March.

The Board will have two committees for the remainder of the year. The Property & Finance Committee will meet on the third Tuesday of each month and the Program Committee will meet on the second Tuesday of each month.

PRESIDENT'S BOOK CLUB

The President's Book Club will meet twice this semester.

On Thursday, March 10th, the book titled "The Fabricated Man" by Paul Ramsay will be reviewed at the Lakeshore One Campus.

"The Human Zoo" by Desmond Morris will be the final book discussed on Tuesday, April 12th at the North Campus.

For more information, call Frank Willock at 676-1200, extension 263.

GELL APPOINTED BOARD CHAIRMAN

Florence Gell is the first woman Chairman of Humber's Board of Governors.

Mrs. Gell, who was a founding member of the Board in 1967, was appointed Chairman in February, succeeding Donald White who retired.

Mrs. Gell was a member of the York Township Board of Education from 1948 to 1953 and was the first woman Chairman of that Board. She was also the first woman elected to the York Township Municipal Council and was re-elected each year from 1954 to 1967.

Mrs. Gell was a member of the Humber Valley Conservation Authority in 1956 and was appointed to this Authority by Metro Council at the time of its formation. She has been an executive member since 1967 and was elected Vice Chairman of the whole authority in 1975. She is also a director of the Metro Conservation Foundation.

Mrs. Gell is heavily involved in the community and is a member of the Board of Governors of the Northwestern Hospital, a Director and Vice President of the Borough of York Housing Company Limited and a worker for the Daffodil Branch of the Canadian Cancer Society. As for hobbies, Mrs. Gell enjoys playing bridge, knitting and gardening.

HUMBER STANDS OUT AT GOVERNORS CONFERENCE

Presidents and members of the Board of Governors of all Ontario Community Colleges recently had a chance to see and listen for themselves to the quality of music students from Humber College. Judging from the applause, the students are second to none.

The occasion was the Governors second annual conference, called Interface '77, held at Toronto's Harbour Castle Hotel. Humber's Stage Band A, one of five stage bands in the College, presented a concert for the conference delegates. The short program featured cuts from the bands series of concerts held throughout the year at schools and some performed on their first album.

This band won the 1976 Canadian Stage Band Championship and will represent Canada this summer at the World International Jazz Festival in Montreaux, Switzerland.

Humber Furniture Design and Interior Design Programs were also featured at the three-day conference with excellent displays of student work.

Humber College has appointed its new governors. The board will oversee the college's financial and administrative affairs.

Humber College has a new \$2 lunch program. The program is designed to help students who are on a tight budget.

Humber College is offering a new course on aging. The course is designed to help students understand the needs of the elderly.

Humber College is offering a new course on politics in bridge. The course is designed to help students understand the political aspects of the game.

NEW FURNITURE INSTRUCTOR

There's a new part-time instructor in Humber's Furniture Design Program.

He's Don Mc Donald who has had extensive manufacturing experience in industry.

McDonald, who holds a Masters Degree in Engineering from the University of Toronto, was works manager for Northern Electric and was responsible for the development of phones at Humber.

He has had experience in both plastics and metals development and manufacture. McDonald also managed the manufacture of the "Snik" satellite.

MINISTER ANNOUNCES IMPROVEMENTS IN STUDENT ASSISTANCE

Dr. Harry Parrott, Minister of Colleges and Universities, recently announced improvements in the Ontario Student Assistance Program (OSAP) for 1977-78.

Students' living allowances under OSAP will be increased to \$61 a week, up from \$57 in the current year. The maximum allowance for books has been increased 11 per cent, and there are several increased allowances to be used in calculating students' resources for determining loan and grant limits.

Dr. Parrott noted that recent improvements in his Ministry's computer systems will allow more efficient processing of OSAP applications. May 2 is the target date for commencement of processing 1977-78 OSAP applications.

The 1977-78 grants budget for OSAP is \$74 million, up \$13 million from the current year. The recently announced tuition fee increase of \$75 for Community Colleges, the first in five years, will be taken directly into account in calculating the amount of assistance that students can receive.

OSAP provides loans and grants to Ontario post-secondary students who have insufficient money to pay their living expenses and tuition fees. The amount of assistance made available depends on students' educational costs and financial resources.

In 1977-78, assistance up to \$1,000 will again be provided as a repayable loan guaranteed by the federal government under its Canada Student Loans Plan. Students needing additional assistance will usually receive it in the form of a provincial government grant.

HUMBER WEIGHT WATCHERS CLUB

Any staff member at Humber interested in losing weight will now have an opportunity to do so by joining the Humber Weight Watchers Club.

Registration for staff is \$7.00 to join and \$3.00 per week and the class size is limited to 25 people. Sessions are held on Wednesday afternoons at Humber's Lakeshore Two Campus. Call 252-5571, extension 267 for more information.

LEARNING RESOURCE CENTRE NEWS

A new resource guide for faculty and staff has been published and distributed to all divisional offices and to all faculty. Titled, "What can we do for you?", this booklet lists the many services and resources available through the Learning Resource Centre.

The LRC has received a number of book donations from members of the Humber community in honor of the College's Tenth Anniversary. Among the recent items were a set of the Ninth Edition (1909) of the Encyclopedia Britannica; a collection of motorcycle and snowmobile maintenance, and a collection of review copies of psychology texts.

Donations are still being received. All books will contain a special Tenth Anniversary metal plate.

HUMBER PREPARING REPORTERS FOR ELECTRONIC AGE

Journalism students at Humber College have had their typewriters taken away.

Now, that may seem a rather peculiar way of teaching budding journalists to be prolific writers, but it's all part of the college's course on electronic newspaper production.

The students don't have machines that will conduct interviews and write stories. But they do have computers that will do just about everything else in getting a story from the writer's head to readable print.

The students type their stories with special electric typewriters. A machine then "reads" the story and translates into punched tape.

The punched tape is then fed into a machine called a Video Display Terminal (VDT) which reproduces the story on a screen where it is edited by electronic means.

Once the editing has been completed, the flick of a switch creates a new, corrected tape of the story. The new tape is then fed into yet another machine which sets the type for printing.

Peter Churchill, a journalism instructor at Humber, explains that the students are merely preparing for what is already a reality in the newspaper industry.

"Many newspapers in Canada have already turned towards electronic editing and production, and most others are considering it," Churchill said.

"It's the only way for newspapers to go, because it eliminates the enormous costs of labor and machinery," he said.

"Reporters don't cost much. So with VDT-type systems, newspapers are simply using their cheapest form of labor to set type."

Humber has invested about \$65,000 in its VDT systems, Churchill said, adding that the full investment would be recovered in about five years through savings over traditional equipment.

RECIPE OF THE MONTH

Igor Sokur, Co-ordinator of the Hotel & Restaurant Management Program at Humber has received more than 100 national and international awards.

Response from readers to his recipes has been excellent. We'd be happy to hear more of your comments.

SUPREME OF CHICKEN IN CANADIAN WHISKEY

Serves 8

Bone and cut in half 4 spring chickens which are approximately 2 1/2 lbs. each.

Place boned half of chickens in a pan and sprinkle flesh of chickens with juice of 1 lemon, 4 oz. whiskey, 1 tsp. salt, 1/3 tsp. each of pepper, cardamon, coriander and nutmeg. Cover pan and marinate for 1 hr. in refrigerator.

Stuff each half of chicken with the almond whiskey stuffing in such a way that a small ball of almond paste will be inside the stuffing.

Wrap each stuffed half of chicken with greased strip of butcher brown paper or double folded foil paper and place in lightly greased pan. Grease top of each half of chicken with butter and place in preheated oven (325 F) for approximately 45 minutes or until fully cooked. Baste chickens every 8 minutes.

When cooked take stuffed halves of chicken from the oven and remove butcher paper strips, place on serving platter and flambe with 1 cup of preheated Canadian Whiskey.

NOTE! from the remaining fat dripping and pieces which are left on bottom of roasting pan, make tasty gravy and serve with the chickens.

RECIPE FOR STUFFING

4 cups of cooked rice and whiskey pilaff
8 - 1 1/2 oz. balls of puree almond paste

RECIPE FOR RICE AND WHISKEY PILAFF FOR STUFFING

2 tbsp. butter
2 tbsp. finely chopped onion
1 cup Australian seedless raisins
1/2 cup finely chopped mushrooms
1 1/2 cup rice
1 1/2 cups chicken stock (salt and seasoning to taste)
1 cup whiskey
1 cup dry sherry
1 tbsp. salt
1/2 tsp. of pepper, cardamon, coriander, thyme, marjoram and nutmeg (in powdered stages)
1 tbsp. finely chopped zest of lemon

Saute onion, mushrooms, and raisins in the butter, add rice and cook over medium heat until all liquid and butter is absorbed. Add seasoned hot chicken stock, also slowly add whiskey and sherry. Add salt, zest of lemon, all spices, cover the pot and put into preheated (325 F) oven for 18-25 minutes or until rice is fully cooked. When cooked remove from pan into bowl, cook and add 2 beaten eggs.

NOTE! Stuffing must be fully cooled before use for stuffing of chickens.

INTERNATIONAL LUNCHEONS

Interested in going out for lunch?

Want to try something different?

Have you ever taken someone to lunch for only \$2.00?

Students in Humber's Family and Consumer Studies Program have prepared a series of international luncheons on Fridays from 11:45 a.m. to 12:45 p.m. in room H239.

The schedule of luncheons for the remainder of the semester is listed below:

MARCH 11	- Italy
MARCH 18	- Spain
MARCH 25	- Greece
APRIL 1	- Britain
APRIL 15	- The Ukraine

Advance reservations are necessary by calling 676-1200, extension 487.

Igor Sokur gathers with staff and patients from the Etobicoke General Hospital during Gingerbread house presentation.

SOUVENIR COPIES LIMITED

Souvenir collectors take note!

The successful sale of Humber's Tenth Anniversary record album and cookbook has left limited copies in the College bookstore.

The album, "First Take", has 10 cuts and features Humber's award-winning big band sounds from the College's unique Music Program. The album costs only \$5.00.

The recipe book, called "Reunion of Recipes" has low cost dishes to international delights. It was produced by students, faculty and graduates of the Family and Consumer Studies Program. It costs only \$2.50.

NEIGHBOURHOOD LEARNING CENTRES

What are they? Who are they for? Derwyn Shea, Director of NLC's for Humber, is interviewed by Director of College Relations, David Grossman.

Q. What are Neighbourhood Learning Centres?

A. They are sites located within the Borough of York where Humber College, the Board of Education and the Parks and Recreation Department jointly and co-operatively offer courses and programs for the residents of the immediate community. While these locations are usually high schools they also include libraries, church halls and an assortment of other existing community facilities. Their purpose is to decentralize adult education into the community and to eliminate unnecessary duplication of services and thereby better service the educational needs of the community.

Q. When and how did they originate, and how do they function?

A. About four years ago, the College began to evaluate its outreach in the Borough of York. The Keele Campus was doing an excellent job but it was only able to meet certain program needs due to size and location.

While the creation of a major campus seemed reasonable, the College was faced with the reality of limited funds and few sites that were appropriate for such a development.

Research indicated the availability of an abundance of under-utilized space for evening classes within the school system and the strategic locations of the schools, particularly the high schools, led quite naturally to the solution of decentralization.

The College then initiated discussions with the Board of Education and what can only be described as a unique model of co-operative partnership in education emerged. Keeping the uniqueness of various communities within the Borough clearly in mind, ten schools were designated as Neighbourhood Learning Centres. The College and the Board of Education developed courses and programs to meet the needs of each Centre from input provided by residents and in such a fashion as to eliminate duplication of offerings and to constructively exploit the individual expertise of each "partner" to the advantage of each neighbourhood. The College and Board even merged their individual calendars of offerings and produced an integrated brochure. Two years after this major step, the Department of Parks and Recreation joined the partnership and integrated its offerings into a comprehensive "package" of education and recreation.

One year after, the Universities of Guelph and Toronto and the Library Board joined as "affiliates" and provided a new dimension of educational offerings at the neighbourhood level. At the same time, a Program Coordinating Committee was formed to rationalize all offerings by all community agencies located within the Borough. This Committee ensures that everyone knows and approves of what everyone else is doing or is proposing to do and further reduces the possibility of costly duplication of programming effort and resources.

As far as the individual N.L.C. function is concerned, each Centre has a supervisor, secretary and janitorial staff (paid for on a cost sharing basis) on duty each evening of operation to service the needs of students and faculty. All facilities (A/V etc.) located on site are at the complete disposition of students or faculty regardless of whose course they are taking. Coffee and snack arrangements are available at all locations. And at each Centre, we have helped form Community Educational Advisory Councils that are comprised of students, staff and residents (individuals and groups) which meet frequently to review programming and operations and to sustain the information flow dealing with real community needs.

Q. The operation you have been describing appears to be unique. Has it been copied anywhere else?

A. Every week we are speaking with educators who are impressed by the NLC cooperative model. While many educational institutions are beginning to take community education and involvement seriously, none have yet been able to achieve the degree of cooperation evidenced in our own Neighbourhood Learning Centres system. And the provincial government is now looking closely at our operation in the hopes of encouraging similar developments elsewhere in Ontario.

Q. What does the future hold for the NLC's?

A. First of all, I think we can anticipate joint programming in certain areas and a further rationalization of specific programs offered by the various community agencies. Secondly, it has become apparent during the past 18 months that the College requires a physical location in the Borough for limited day-time and week-end programming that cannot be met by existing community facilities. The recent acquisition of the new York-Eglinton Centre should help us develop new programs and activities that meet, even further, the needs of the residents of the Borough of York. Finally, I would hope we could work toward the establishment of a similar system for the Borough of Etobicoke.

Q. What has been the community response to NLC's?

A. Perhaps that is best illustrated by our enrolment statistics. In the first year of operation, 1,000 students accessed Humber College courses with an average class size of 9.9. The second year the enrolment climbed to 1,650 with an average class size of 17.7 and last year the figure reached 2,300 with an average class size of 22.4. This year it appears we will exceed 3,000 with the average class size stabilizing at approximately 23. Similar increases in activity have been recorded by the Board of Education and the Parks and Recreation Department (last year numbering 5,000 and 8,000 registrations respectively).

Q. Are Neighbourhood Learning Centres expensive to operate?

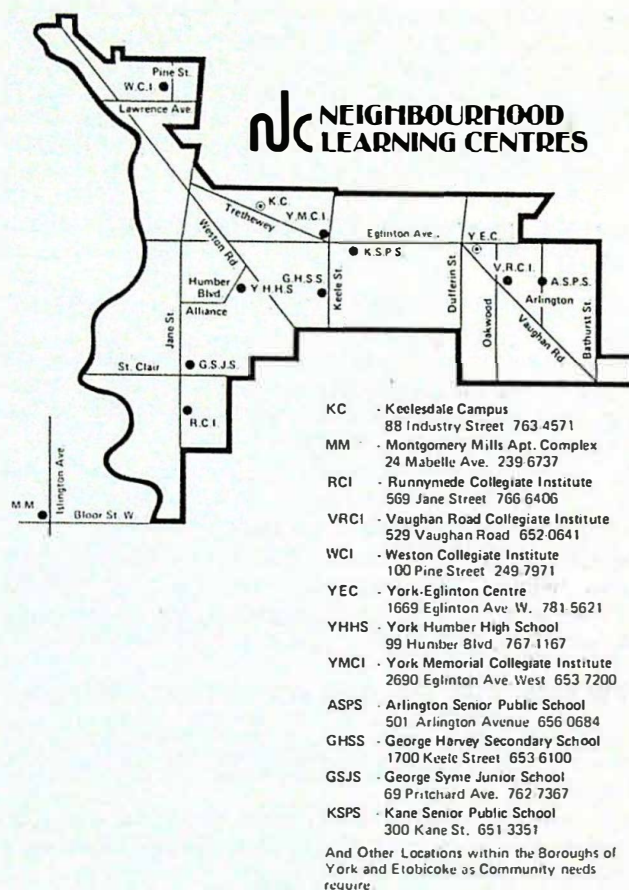

A. No, though obviously they require funding. But the large capital outlays that would be required for the construction of campuses or other major facilities are eliminated by accessing existing community facilities where available.

Further, by producing brochures and other advertising jointly an economy of scale is realized and the careful elimination of duplication of programming stretches the educational dollar ever farther. And there are other things to consider in terms of cost. The elimination of lengthy travel times and distances and the community nature of the NLC's are benefits that involve costs of one sort or another. And given the fact that our major

campus is stretched to the limit of its physical facilities, the provision of the NLC's provides some servicing that would otherwise require large capital investments if student needs were to be met at the north location.

Q. Have there been any change in programming during the past three years?

A. Yes. When we began, our programming was based upon a pretty traditional model of credit and on-credit courses delivered during the evening hours. But as the communities we serve grew more aware of our accessibility, we began to receive pressure to provide day-time and week-end courses as well. Fortunately, we were able to use church halls and libraries to meet these needs. And then we received requests for short courses which encouraged us to develop an entire program of highly successful mini-conferences. So our program and operational modes have been highly flexible and responsible to community needs.

Borough of York Department of Parks and Recreation

Taylor Parnaby
CKEY Radio

Donald Hartford
CFRB Radio

HUMBER VISITED BY MEDIA

CFRB, CHUM, CFGM and CKEY.

These are some of the radio stations who have representatives visiting Humber College during the College's Tenth Anniversary to talk with students, faculty and staff.

Recent guests included Don Hartford, President of CFRB Radio - the largest station in Canada -; Taylor Parnaby, News Director of CKEY Radio; J. Robert Wood, Program Director of CHUM Radio; David Charles, Program Director of CFGM Radio in Richmond Hill; Michael Caine, Vice-President of CJMR Radio in Mississauga; and Dan Plouffe, an Announcer on CFTR Radio.

CABLE BROADCAST ENDS ON HUMBER RADIO

Humber's radio station will stop broadcasting on cable in March.

CHCR Humber Radio, which has been broadcasting on Rogers and Scarborough cable companies for the past few years, will be affected by new regulations issued by the Canadian Radio and Television Commission.

The regulations govern closed circuit broadcasting and therefore, CHCR will be forced to get a license or be dropped from the programming of the cable companies.

The CRTC also won't license CHCR as a student radio station because the station has faculty and staff involved with administration and programming. The CRTC issues licenses to organization which are run solely by students.

NEW HUMBER NUMBER AT NORTH CAMPUS

The second half of Humber's Tenth Anniversary year will mark the start of a new telephone number for the North Campus.

Beginning April 3, 1977, the Humber number of 676-1200 will only be a memory to thousands of people who used it and will be replaced by 675-3111.

CONTEMPORARY HEALTH ISSUES TO BE DISCUSSED

Humber's popular "Evening of Discovery" mini-conference series has an interesting subject for its Wednesday, March 16th session.

The Health Sciences Division in co-operation with the Neighbourhood Learning Centres will present "Contemporary Health Issues" with particular emphasis on the topics of Coping With Stress, Acupuncture, Biorhythms and Chiropractic.

This series will be held at Humber's Runnymede Neighbourhood Learning Centre on Jane Street from 7:00 p.m. to 10:00 p.m. Registration is only \$2.00.

Call 676-1200, extension 377 for more information.

HAREWOOD LECTURES ON ADULT EDUCATION CLASSES IN SPANISH

Glenn Harewood, a member of Humber's Modern Languages Department, spoke to the Fall Conference of the Ontario Modern Language Teachers' Association at Carleton University in Ottawa.

Harewood's topic was "Adult Education Classes in Spanish". Harewood is an active member of the Ontario Modern Languages Association, the American Association of Teachers of Spanish and Portuguese (AASP), the National Association of Language Laboratory Directors (NALLD), and the Modern Language Association of America. Glenn is a graduate of the University of Madrid.

HUMBER CONFERENCE EXAMINES SEXUAL OFFENCES

The Law Enforcement Program at Humber will conduct an important one-day conference on Monday, March 28, 1977 called 'Sexual Offences: Facts, Fictions, Solutions'.

The conference is structured for those who are interested in knowing facts and attempting to understand sexual deviation as a legal and clinical problem which concerns society.

Doctor Alex Gigeroff, a criminologist, and Doctor Ruth Bray, a psychologist, will present material and methods used in their book titled Exhibitionism.

For more information, contact Barry Saxton at 676-1200, extension 394.

HUMBER BAND OFF TO EUROPE

Humber College's Stage Band A will represent Canada at the World International Jazz Festival in Montreaux, Switzerland this summer.

The band, which won the 1976 Canadian Stage Band Championship, received two invitations to the Montreaux Festival - one from the International Jazz Federation and the other from the Montreaux Jazz Festival.

Montreaux, the world's largest jazz festival is the last stop for the band on a three-week tour. The 19 music students and conductor Al Mihalek will play in other European cities including London, Holland, Luxembourg and Paris.

STUDENT WINS CONSERVATION AWARD

Eric Oakleaf, a student at Humber was awarded the B. Harper Bull Conservation Fellowship Award which is given to a resident of Toronto who is vitally interested in conservation.

Oakleaf is in his third year of the Landscape Technology Program.

HAWKS RETURN FROM SWITZERLAND

Humber's hockey team returned in January from a very successful international series of games involving National A and B teams from the Swiss Ice Hockey Federation.

Humber concluded its five game series with one win, one loss and three ties.

The Hawks, coached by Peter Maybury, defeated the Swiss National B Team - Davos by a 7-4 score in the final game. Earlier, a National A team - Zug, beat Humber 6-3.

The tie games were against Arosa (National B) 6-6; Uzwil (National B) 1-1 and Kloten (National A) 4-4.

Members of the Humber team took advantage of the educational and recreational trip with tours and visits of France, Germany, Italy and Austria.

HEALTHFUL HINTS

Humber Happenings will introduce in this edition a new feature called "Healthful Hints".

This first in a series of physical fitness articles has been prepared by Humber's Athletic and Recreation Department to meet the increasing demand from the Humber community for methods to keep in physical and mental shape.

Watch for further instruction in future editions or call the Athletic and Recreation Department at 676-1200, extension 217.

Physical fitness means more than having strong muscles and great endurance. It means enjoying the best possible health plus the capacity to perform everyday tasks effectively and to meet emergencies as they arise. It is also relative, since handicapped people may be physically fit within the limitations imposed by their handicaps. Your goal should be to reach and maintain a level of physical fitness that is maximal for you.

Physical fitness has two basic aspects: medical fitness, which means having a sound, healthy body; and dynamic fitness, which is your capacity for action. The first is determined by a medical examination and the second by tests of physical performance.

You can have one aspect of physical fitness without the other. For example, suppose you get a "clean bill of health" from your physician, but you can't stand even slight exertion without distress. In this case you may be healthy, but you aren't physically fit because you lack the capacity for action. Or, you may be an athlete who performs well but has an undetected health problem. If so, you aren't physically fit because you don't have good health. For this reason your action capacity, although good, may be below your potential.

Regular Medical Care	How much should I exercise?
MEDICAL FITNESS	DYNAMIC FITNESS
Regular Medical Care	How much should I exercise?
Regular Dental Care	What kind of exercise is best?
Good Nutrition	Regular Exercise Program*
Sufficient Rest	Stepped Up Ordinary Physical Activity
Avoidance of Toxic Substances	Physical Activity at Work
Regular Vigorous Exercise	Physical Recreation Program

*(section illustrating REGULAR EXERCISE PROGRAM & POTENTIALLY HARMFUL EXERCISE)

HUMBER STUDENTS BID FOR NEW SPORTS CENTRE

Humber's sports Bubble is wearing thin and in its place a \$2.3 million structure may be erected by September, 1978.

A proposal to build a student centre, including two distinct segments, will come before the college's Board of Governors in February.

The structure will be composed of a 48,000 square-foot multi-purpose gymnasium-auditorium and a 24,000 square-foot student union section, both on the north campus.

The bubble is the only on-campus area for recreation and sports, and its life expectancy is up to seven years. It has been in use for seven years and the canvas-like dome is worn through in numerous spots.

The complex would include a triple gymnasium, squash courts, saunas, a weightlifting room and a physical fitness institute. The centre is a student union-administration project.

"We've gone through the feasibility phase," said Jack Buchanan, Humber's Director of Educational and Student Services said. "Now we're into the implementation stage where we must secure approval from the Board of Governors and the Ministry of Colleges and Universities."

Humber already has requested \$1.5 million from the Ministry to help finance the construction of the gymnasium. It also has requested \$400,000 for the student union section with the students paying for the remainder of the project, an additional \$400,000.

The Student Union now has \$300,000 accumulated from surpluses over the past 10 years. Humber will also be applying to Wintario for a financial grant.

"With the growth of the College, we need better facilities to serve in-house and community athletics," said Buchanan. A November survey conducted by the student union showed overwhelming support for a new centre.

Almost 80 per cent said they would take greater advantage of a new sports centre. Only 11.7 per cent said the present bubble is adequate.

METRIC HUMBER HAPPENINGS

Humber Happenings will go metric in its next edition, April 1977.

In accordance with the College's decision to move to the metric system, the Humber magazine will be a few millimetres longer and few millimetres narrower.

HUMBER IN PHOTOS

Humber's Master Chef, Igor Sokur, puts the finishing touches atop a 23 foot cake made by him and students in the Hotel and Restaurant Management Program to celebrate the College's Tenth Anniversary (top). In photo at top right, College President Gordon Wragg congratulates Anita O'Brien, a student in the Advertising and Graphic Design Program, for her design of a new Humber Diploma. Course instructor, John Adams, looks on. At right, students and staff of the Humber Music Program who were involved in the production of the first record album gather for picture. Students in Humber's Furniture Design Program spent two months making a multi-piece console to house the new colour television equipment at Humber. The console is shown in photo at right. Fashion Modelling students are pictured in bottom right during a recent 10th Anniversary fashion show. Below, one of the many displays at public libraries promoting Humber's various events and activities.

EDUCATIONAL AND STUDENT SERVICES DIRECTOR APPOINTED AT LAKESHORE

Andy Jimenez was recently appointed Director of Educational and Student Services for Humber's Lakeshore Campuses.

Jimenez came to Humber in 1975 as a designer-analyst for Project Aristotle which stands for Automated Retrieval Information System to Track and Optimize the Training and Learning Environment. Jimenez also worked as Educational Services Officer of Canadore College in North Bay for three years.

He was educated in the Philippines and the United States, where he obtained his M.A. in Philosophy and M.Ed. in Instructional Technology. He came to Canada on a fellowship granted by the Ontario Institute for Studies in Education where he is finishing his Ph.D. in Measurement, Evaluation and Computer Applications.

Jimenez has been involved in designing, implementing and evaluating models of personalized instruction during the past seven years. Recently, he received an award for outstanding service as an Educational Scientist.

MATH WINNERS AT LAKESHORE CONTEST

The Mathematics Department at Humber's Lakeshore II Campus held its second annual Christmath contest.

The contest was open to all students in the Mathematics Upgrading Program at the Lakeshore I, II, III and Keelesdale Campuses.

Mathematics Co-ordinator Alex Fioroni and staff members Adrian Buckley, Alfred Sin, Arnold John and Aldo Papini organized the competition.

GYM IN DEMAND AT LAKESHORE CAMPUS

The Gymnasium at Humber's Lakeshore One Campus is being used quite extensively by various community groups.

The Southern Etobicoke Lacrosse League rent the gym each Tuesday for conditioning and practises.

In March, the Ontario Gymnastics Federation will conduct an Easter Training System for about 75 coaches and gymnasts.

March is also the month for the Ontario Gymnastics Regional Meet. Humber's Gymnastics Club will compete in the all day event on March 12th.

wintario

HUMBER IS SITE OF WINTARIO DRAW

Wintario is coming to Humber College!

Humber's Director of College Relations, David Grossman, wrote to the Ontario Lottery Corporation inquiring about the possibility of a draw at the College during Humber's Tenth Anniversary.

Grossman received confirmation early in February from OLC official Ellen Resnick for a draw to be held at Humber's Lakeshore One Campus Auditorium during the evening of Thursday, March 31, 1977.

Grossman said a series of free exhibits, displays and demonstrations on and about various Humber programs, as well as a concert, will precede the draw. The event will be televised by Global Television.

Join the audience and see a Wintario draw live from Humber on March 31st.

NEW LETTERHEAD FOR HUMBER

This is the new corporate signature for Humber College.

Members of the College Graphics Committee have been meeting regularly to select the new design and also to discuss the metric conversion of office stationery within the next few weeks.

Letterhead, business cards, memo sheets and message pads issued in the SI standards are the only approved correspondence vehicles for use at Humber.

JOIN THE EARLY BIRD CLUB

Now is your chance to get in physical condition and it won't cost you any money.

Humber's Athletics and Recreation office is offering free tennis, badminton, basketball and exercising in the Bubble Gymnasium at the North Campus from 7:00 a.m. to 8:30 a.m. and from Monday to Friday inclusive.

The athletic facility will be restricted weekday mornings to fulltime faculty, staff and students that are members of the Early Bird Club.

Arrangements for access to the Bubble and use of equipment must be made prior to the intended day of usage by calling extension 217 or 270 at the North Campus.

This program is available until the end of April 1977. Call now and join the Humber College Early Bird Club.

UNIQUE DESK-TOP MICROSCOPE AT HUMBER

The Chemistry Cluster in the Technology Division at the North Campus has recently acquired a desk-top scanning electron microscope (SEM).

The instrument, built by International Scientific Instruments, is capable of producing excellent quality photomicrographs in a magnification range of 20x to 20,000x.

The image of the specimen is viewed on a TV monitor from which photographs may be taken by means of a specially designed Polaroid camera.

The SEM will be used by third year Chemical Technology students (Bioscience Option) as part of their course Microscopy and Photomicrography, and will complement their studies using the existing RCA transmission electron microscope.

The microscope will also be of interest to students in electronics programs as it is ideal for the examination of micro-circuitry and other small electronic components.

METRIC CO-ORDINATOR APPOINTED AT HUMBER

Ed Ganja has been appointed Metric Co-ordinator at Humber College.

He will work closely with the Steering Committee on Education to obtain information, develop plans, establish guidelines dates and create an SI awareness program for College faculty, staff and students as well as the community-at-large.

Ganja has been a staff member in Humber's Technology Division since 1971 and prior to that was Technical Manager for Deterium of Canada Limited in Nova Scotia.

For the past four years, he has been involved in the design, development and teaching of SI metric courses to various industries. Ganja is also a co-author of three SI metric teaching manuals with the first one being written for the Ontario Ministry of Colleges and Universities.

FUEL OIL BRANCH ATTEND PROGRAM AT HUMBER

The increasing consumer awareness about heating equipment was one of the reasons resulting in a special program given by Humber College to the Fuel Oil Branch sales staff. Humber conducted a five-day Heating and Furnace Sizing course for the Fuel Oil sales staff which consisted of a thorough updated course on furnace sizing.

"In order to sell a new furnace or to discuss the present one with the customer, the salesman must not only know all aspects of heating and furnace sizing, but he should also be able to explain it," said George Abbott, Training Manager for Fuel Oil Branch.

The course at Humber involved teaching of a specialized subject not usually offered by colleges as a five-day program. Humber was approached by the BP Oil Company and consented to design the course to meet BP's requirements.

"Humber did an excellent job and those who attended received take-home material for reference," said Abbott. "It was very interesting and useful".

**STARTING APRIL 3, 1977
HUMBER'S NORTH CAMPUS

BUSINESS INSTRUCTOR DESIGNS SHORTHAND PROGRAM

Joan Girvan, Senior Program Co-ordinator for Secretarial Studies Programs, is now completing a Forkner Shorthand Individual Learning Package.

This will enable people to learn an excellent shorthand method at their own pace from a visual and audio media.

SABBATICAL LEAVE FOR EIGHT HUMBER STAFF

Eight members of Humber's staff have been granted sabbaticals by the College's Board of Governors. They are: Paddy Pugsley, Applied Arts; Gene Duret, Technology; Peter Williamson, Margaret Hart and Nina Butska, all from Human Studies; Larry Robinson and Elizabeth Robinson from Business; and Anne Thom from Lakeshore.

The sabbatical leave is for the year 1977/78.

Write it good

Beginning writers should have complete control of the rules for using their language. Without it, you'll be like a carpenter who can't tell a plane from a plank, a cook who doesn't know the difference between marjoram and marshmallow, a baseball player who doesn't know that three strikes and you're out. However, some of us need occasional reminders. Here are yours:

- (1) Don't use no double negatives.
- (2) Make each pronoun agree with their antecedent.
- (3) Join clauses good, like a conjunction should.
- (4) About them sentence fragments.
- (5) When dangling, watch your participles.
- (6) Verbs has to agree with their subjects.
- (7) Just between you and I, case is important, too.
- (8) Don't write run-on sentences they are hard to read.
- (9) Don't use commas, which aren't necessary.
- (10) Try to not ever split infinitives.
- (11) It's important to use your apostrophe's correctly.
- (12) Proofread your writing to see if you any words out.
- (13) Correct speiling is absoluteley esential.

(purloined from the New York Press Association newsletter)

McCARDELL APPOINTED CHAIRMAN IN CCL

Nora McCardell is Humber's new Chairman of Community Education in the Centre for Continuous Learning. Miss McCardell replaces Frank Thibodeau who recently joined the Palace Pier Corporation as their Director of Public Relations.

Miss McCardell, who will take up her new appointment in April, is currently an Assistant Professor and Secretary of the Faculty of Education at McGill University in Montreal where she is responsible for teaching, administrative assignments and continuing education.

She has a BA in Psychology from Concordia University, a MSc in Clinical Psychology from McGill, an MA in Geography and a PhD in Geography and Environmental Studies from the University of Waterloo.

SU SALUTES HUMBER AT 10 WITH FREE FILMS

The Student Union at Humber is helping to commemorate the College's Tenth Anniversary with a series of free movies. Each Wednesday at 3:30 p.m. and again at 7:30 p.m., the SU presents a motion picture in the North Campus Lecture Theatre.

The film titles and dates for the remainder of the academic year are listed below:

- MARCH 2 - Anne of a Thousand Days
- MARCH 9 - Juggernaut
- MARCH 16 - The Bad News Bears
- MARCH 23 - Soylent Green
- MARCH 30 - Romeo and Juliet
- APRIL 6 - The Magic Christian
- APRIL 13 - Sometimes a Great Notion
- APRIL 20 - The Way We Were

The films are open to faculty, staff, students and visitors to the College. For more information, call 676-1200, extension 271.

NEW FACES AT HUMBER

Many new faces have joined the fulltime faculty and staff at Humber since our last edition. Their names, position and departments are listed below:

Nora McCardell	Chairman of Community Educ.	Centre for Continuous Learning
Martina Bukvasevic	Parking Lot Attendant	North Campus
Thomas Conlan	Security Guard I	North Campus
Henny Wiley	Data Control Clerk	Financial Services
Ralph Hanaford	Parking Lot Attendant	North Campus
Heather Revoy	Secretary I	Business Division
Sheila Ifill	Nursing Instructor	Osler Campus
Cindy Shoemith	Clerk I	Lakeshore I Campus
Dianne Fraresso	Nursing Instructor	Osler Campus
Nancy Thompson	Typist-Steno III	Lakeshore I Campus
Deanna Merritt	Registration Clerk	Centre for Continuous Learning
Sean Treacy	Master-General Business	Lakeshore I Campus
Nora Burnell	Library Technician II	Learning Resources Centre
Antun Bukvasevic	Caretaker II	North Campus
Wilfred Gaudreau	Security Guard	North Campus
Thomas Fornter	Technician II	Learning Resources Centre
Josefine Gottschlich	Clerk General II I	Financial Services
Kathlyn Starkey	Secretary I	Lakeshore I Campus
Elizabeth Skinner	Typist-Steno II	Developmental Centre
Steve Ambroz	Caretaker II	Lakeshore II Campus
William Janesivskyj	Plant Services Technologist	Central Plant
Ann Marie	Teaching Master	Quo Vadis Campus
Robert McCabe	Admission and Records Officer	Lakeshore II Campus
Elizabeth Timlin	Teaching Master	Health Sciences
Moira Stephenson	Program Development Consultant	Centre for Continuous Learning

HOW LONG IS 10 YEARS?

The concept of time measured in years is becoming an irrelevant yardstick with which to measure accomplishments and projected anticipations.

Our achievements at Humber College during our 10 year history surpass anything experienced in post-secondary education in Ontario's history. We are normally modest about these achievements because the pace of life we are currently experiencing makes things possible that have never been possible before. Community involvement that monitors the pulse beat of a growing and changing population means that we have been in a position to adapt quickly to meet changing community needs.

To be part of our next ten years call, write or visit:
Humber College of Applied Arts & Technology,
P.O. Box 1900, Rexdale, Ontario, M9W 5L7
Telephone 676-1200.

CAMPUS TOURS ANYONE?

Are you interested or do you know of anyone, a community group or organization wanting to tour any of the campuses of Humber College?

If so, call Humber's Office of College Relations at 676-1200, extension 554.

Requests for tours must be made two weeks ahead of time.

DOCUMENTARY FILM ON HUMBER'S FIRST DECADE

Cinematography International Incorporated will produce a documentary film in honor of Humber's Tenth Anniversary. The title of the 20-minute film will be "Humber's First Decade".

UNIQUE CONCEPT IN CANADA AT OSLER CAMPUS

Humber's Osler Campus will become a Health Sciences Adult Learning Centre in September 1977.

Students 25 to 50 years of age interests in pursuing a career in the Health Sciences field will have an opportunity to take a variety of part-time courses and post-nursing programs at Osler.

Students up to 24 years of age and interested in Humber's two-year Nursing Diploma Program will be admitted to the North Campus, also beginning in September.

BUCKLEY INVITED BY HEALTH MINISTRY TO SERVE ON COMMITTEE

The Health Sciences Division continues to take a leading role in the development of education and training programs for ambulance attendants in Ontario.

Jack Buckley, Chairman of Allied Health Programs, has been invited by the Ministry of Health to represent the 18 Ontario community colleges offering the Ambulance and Emergency Care Program on a Provincial Steering Committee.

This committee is responsible for advising the Ministry of Health on the design and content of examinations, procedures for certification, etc. related to qualifying the province's 2,500 ambulance attendants for certification as Emergency Medical Care Attendants.

Bill Magill, Acting Co-ordinator of the Ambulance and Emergency Care Program has been asked to sit on the examination sub-committee related to this same project.

SOLAR ENERGY COULD COME TO HUMBER

Humber may be the first educational institution in Ontario to have a solar energy technology course.

The three-year program could start at Humber's Lakeshore II Campus if the College gets final approval from the Ministry of Colleges and Universities.

Al Picard, Dean of Technology at the Lakeshore II Campus, said the outline of the program has received preliminary approval. An evening course offered by Humber in the Fall semester covered the solar energy topic at a relatively basic level.

Picard said the real future of solar energy is in the generation of electric power although at the present time general interest seems to centre around its use for domestic heat.

DID YOU KNOW

The Lakeshore One and Two Campuses of Humber provided a variety of Technology and Metric exhibits during a recent display at Sherway Gardens in Etobicoke . . . The Radio Broadcasting Program recently had a reunion of all graduating students with a dinner and dance honoring Humber's Tenth Anniversary. Also attending the reunion were members of the programs advisory committee . . . PETER CHURCHILL, an instructor in the Journalism Program, has been elected President of the Humber Faculty Association . . . Fall enrolment in the Centre for Continuous Learning increased in 1976 over the previous year by more than 2,500 students. CCL figures show 10,819 people registered for courses compared to 8,158 in 1975. The Winter semester also showed an increase of about 800 students for a total of 4,700 . . . Faculty members are invited to first aid classes offered through the Health Sciences Division. A fee of \$2.50 is charged which is then turned over to the St. John's Ambulance . . . DON FOSTER and JOHN FINN, staff members of Humber's Funeral Services Program recently conducted a one-day conference in Cleveland for the Ohio Embalmers Association. The topic was "Funeral Service Personnel as Members of the Health Care Team" . . . MARINA HEIDMAN has been appointed Co-ordinator of Continuing Education for the Health Sciences Division . . . The Quiet Lounge at the North Campus is no longer available to faculty, staff and students. It is now called the Principal's Conference Room and is available for meetings and seminars involving members of the North Campus Academic Council. Bookings can be made by calling extension 438 . . . DONALD WALFORD is head caretaker at Humber's Osler Campus, replacing FRED KETTERINGHAM who assumes the same position at the Lakeshore One Campus. The move resulted when BILL FORSTER left Lakeshore to take up a position with the new Toronto Eaton Centre . . . SALLY HOPKINS, a graduate from the Creative and Communications Arts Division, recently presented her first public showing of etchings, sketches and paintings at the Eatonville Library in Etobicoke . . . DAVID TITCOMBE, a Humber graduate, has been appointed Advertising Sales Representative for Foodservice and Hospitality Magazine . . . JACK EILBECK, was appointed Chairman in the Applied Arts Division . . . ED SOSSIN of Humber's Music Department staff was a member of an entertainment team which performed for Canadian troops in West Germany and the Middle East during Christmas . . . KIM LUMSDON, the tenth person to swim Lake Ontario, is a student at Humber. She's training to cross the English channel and compete in six international marathons this summer . . . GEORGE DUFFIELD, a sportscaster with CBC Radio in Toronto, is registered in a part-time Equine Studies course at Humber . . .
